About the Course

Our Educator's Course, *Bilingual and Multilingual Learners from the Inside-Out* is an 8-week, blended learning course that mixes self-study and online learning with an in-school case study.

Participants gain high-level expertise while learning research and practical strategies. They then apply their knowledge directly to their own schools and classrooms. With 7 weekly modules and an interest project in the final week, this course has been described by our participants as "fascinating," "transformative," "practical" and "essential."

This course was designed to empower all teachers (regardless of age group, subject, curriculum or country) with new expertise and skills. Participants learn to better understand BMLs, develop a working knowledge of language acquisition and high-impact strategies to accelerate learners' progress in language and content. They can expect to be engaged, motivated and challenged throughout the 8 weeks.

Once participants have successfully completed all course requirements, they will receive certification.

"An excellent course which has really helped me to better understand and cater for the needs of my bilingual and multilingual learners. I highly recommend it."

- Kate Ellicott, NEXUS International School, Singapore

"The emphasis that was placed on making connections and applying 'theory' to the context of our own schools and classrooms had a powerful impact. It greatly enriched my understanding of how to support our BMLs." - Rob Ingham, Knightsbridge School, Montenegro
